

D

“Alone we can do so little; together we can do so much.”

Helen Keller

Themes: Teamwork, social engagement, relationship building, accurate self-perception, communication, self-efficacy

Claims: The best way to accomplish things is to work with others. Cooperation leads to better solutions.

Counterclaims: You can be more productive working alone. Working in groups is inefficient and leads to inferior solutions.

Essential Question: How do we know if working with others will make us better off?

Storytelling: Talk about a time when you worked with other people to achieve something great. How did other people help you? Talk about a time when you worked alone and did something that would have been impossible had you worked with others. What was it about working alone that ensured your success?
